Environmental Spaces

Conserve Environmental Spaces

Diverse event

Encourage healthy habits

recycling
- recycling Cube
- possibly pieces of Cube into different
  places to make things hard to
- Amenity for pushy workers.

Recycling Code Snippets

Different things user wants to build

Give pieces of functions → make target

[Given a block of functions, reuse its
pieces to make a new program]

targets   building blocks

Existing blocks

Block programming

Just building from blocks (for now)
    ~Like, the user can't add their own things

Goals:
    - Make it look nice (not text output)

Bear Game

Breaking into trash cans as a bear

Use the website for where they tested the trash cans

Reward for breaking in fast

Assets:
- Grab existing trash cans
- Low-res

Food flies out of the cooler to signify damage

weak spots / features to target
- Do more damage

Each cooler has damage (hp)
- Perhaps certain events have their own hps
    - Need to preserve a certain # of items (1→2→3)

3rd person vs 1st-person point-cut/like ?
